

30th Anniversary Cork Art Therapy Summer School

The Art Therapy Summer School will be celebrating its 30th Anniversary this year, welcoming participants for 5 days of immersion in the experience, practice and theory of Art Therapy.

Elizabeth Stone will be our keynote speaker, bringing a lifetime of Art Therapy expertise that spans the history of the profession both in Europe and the USA. She will be joined by other renowned Art Therapist facilitators and lecturers to ensure the quality and depth of this event.

The Summer School is a great opportunity to explore the revelatory and integrative potential of art making within a therapeutically facilitated group environment. These group workshops are then embroidered with a series of lectures to create a conceptual framework, lending a broader sense of meaning to the personal adventure.

The Summer School is an intense and colourful event of individual discovery, professional inspiration, group dynamism, education and authentic sociability. Whether your interest is personal and/or work related, this is an invaluable encounter.

“The pace, quality, integrity and delivery of every moment of the course was truly wonderful.... Like being held in a soft, well fitted glove, each of the 5 days provided an enriching, insightful experience enabling me to return home with a stronger yet lighter centre. I cannot thank you enough.” Nicky, Westport

**Meet others with emotional authenticity
Meet yourself more deeply**
